ABSTRACT

This publication provides detailed listings of graduate enrollments reported by 865 institutions that enroll students for advanced degrees. This report presents the classification by level of enrollment in two categories: first year and beyond first year. Tables 1 and 2 provide aggregate enrollment data respectively for (1) master's and doctor's degrees, and (2) first-professional degrees by level of enrollment, sex of student, attendance status, and institutional control and level. Tables 3 and 4 present aggregate enrollment data respectively for (1) master's and doctor's degrees, and (2) first-professional degrees, by level of enrollment, sex of student, attendance status, State or other area, and institution. Table 5, the bulk of the report, presents aggregate enrollment data for advanced degrees, by level of enrollment, sex of student, attendance status, area and field of study, and institution. (AF)

FOREWORD

This publication contains data acquired in the fall of 1969 in the U.S. Office of Education's 11th annual survey of students enrolled for advanced degrees. The questionnaire in which these data were acquired was part of the fourth annual Higher Education General Information Survey (HEGIS) package, which goes to all institutions of higher education.

The questionnaire on students enrolled for advanced degrees in 1969 contained a major modification. In previous years, colleges and universities were asked to classify their advanced degree students into three levels of enrollment; i.e. first year, intermediate years, and terminal year (the last-mentioned being students expected to receive the doctorate by the end of the academic year to which the survey applied). In the 1969 survey, the intermediate and terminal categories were combined, so that there are only the two categories of first-year students and all other.

Readers concerned with historical enrollment trends should also refer to the Office of Education's series on Opening Fall Enrollment and on Earned Degrees Conferred. The three survey series provide a fairly comprehensive picture of the flow of students through higher education.

The Office of Education is grateful for the cooperation of the institutions of higher education that supplied data for this report.

INTRODUCTION

This publication, based on the U.S. Office of Education's 11th annual survey of students enrolled for advanced degrees, provides detailed listings of graduate enrollments reported by each institution in each field of study. A companion report will summarize enrollments in a variety of ways--by geographic area, level of enrollment, attendance status, sex of student, and area or field of study--and will compare the 1969 enrollments with those from previous years. 1/

The report form and instructions to respondents are reproduced in the appendix of this report.

Scope of Survey

The accompanying tables are based on information from 865 institutions in the United States and outlying areas--as far as the Office of Education staff could determine, the only institutions enrolling students for advanced degrees in fall 1969. 2/ Of these institutions, 281 had enrollments for first-professional degrees as well as for master's or doctor's degrees, 520 had enrollments for master's or doctor's degrees only, and 64 had enrollments for first-professional degrees only. Thus, tables reporting candidates for master's or doctor's degrees are based on a total of 801 institutions; those reporting candidates for first-professional degrees, on 345 institutions.

Instructions for inclusion or exclusion of students were exactly the same for the 1969 survey as for the preceding year. All students enrolled for a master's, doctorate, or first-professional degrees in specified fields were to be included. The survey instructions also described several categories of students that were to be excluded: Students not enrolled during the fall term (even if they were known to be working toward an advanced degree), students in programs not terminating in an advanced degree, and postdoctoral students. Section B of the instructions to survey respondents (appendix) provides a more detailed account of students to be included or excluded.

Student Classification

In a major departure from previous years' surveys, this report reduces the classification by level of enrollment from the three used previously--first year, intermediate years, and terminal years--to two categories--first year and beyond first year. First-year students were those who had completed less than one full year of

1/ Selected comparative data were reported in Students Enrolled for Advanced Degrees, Fall 1969: Preliminary Report, OE 54009, June 1970.

2/ The preliminary report (see note 1) cited a total of 866 institutions. The early counts had overlooked the merger of two institutions so that the final count reduces to 865; the coverage of preliminary and final reports is the same, even though the reported number of institutions is different.

required study for an advanced degree; terminal students were those expected to complete all doctoral requirements by the June following the survey date; and intermediate students were those between the two extremes.

No change was made in the classification of enrollments by attendance status. As in previous surveys, the instructions for the 1969 survey describe a full-time student as one whose academic load--course work or other required activity--is at least 75 percent of the normal student load as defined by the institution; students carrying less than 75 percent of the normal load are classified as part-time.

Nine academic fields previously not reported separately have been added (see appendix, paragraph D-9 of the survey instructions). In another change, the category of first-professional degrees in theology was broadened to include not only candidates for the Bachelor of Divinity but also Rabbi and other degrees at a comparable level. The 1969 counts of first-professional enrollments therefore include a number of candidates for degrees other than the traditional Bachelor of Divinity, in particular, the Master of Divinity. Thus the 1969 counts for theology are not strictly comparable to those from previous years.

Organization of the Tables

Tables 1 and 2 provide overall summaries of 1969 advanced enrollments; the former applies to candidates for master's and doctor's degrees and the latter to candidates for first-professional degrees. For these tables, 4-year institutions were classified as "universities" and "others." The university classification includes those institutions which give considerable stress to graduate instruction, which confer advanced degrees as well as bachelor's degrees in a variety of liberal arts fields, and which have at least two professional schools that are not exclusively technological. Institutions that do not meet these criteria make up the "other 4-year" group. Table 3 shows total enrollments of master's and doctor's candidates at each institution in the survey; table 4 shows institutional totals for first-professional degree candidates. Table 5, which makes up the bulk of this report, lists enrollments by subject field, State, and name of institution. On each of the five tables, separate counts are given by level of study (first year or beyond the first year), sex of student, and attendance status (full-time or part-time).

For five institutions included in the tables, breakdowns by sex of student were estimated by the Office of Education on the basis of previous years' data, since the institutions themselves could not provide this information; institutions for which estimates were derived were Memphis State University, California State College at Hayward, Fresno State College, San Francisco State College, and Northwestern University. In addition, two institutions (Fordham University and Washington University) were unable to provide breakdowns by year of study; one institution (Inter American University of Puerto Rico) provided total counts for the broad areas of education and business, but not for specific fields within these areas. The necessary breakdowns were estimated by the Office of Education proportionate to previous years' data.

HIGHER EDUCATION GENERAL INFORMATION SURVEY

INSTRUCTIONS FOR COMPLETING
SCHEDULE V. - STUDENTS ENROLLED FOR ADVANCED DEGREES, FALL 1969

(OE FORM 2300-2.5)

Please read the definitions and instructions before entering the data for your institution. If you need additional clarification on any of the items, please call Dr. Marjorie Chandler, 202-962-7301 in Washington, D.C.

DEFINITIONS AND INSTRUCTIONS

GENERAL

A. PURPOSE: The purpose of this schedule is to ascertain the number of students enrolled this term for advanced degrees, the students' fields of specialization and their progress toward their degrees.

B. SCOPE OF THE SURVEY: This is not a survey of all students taking graduate study, but of all enrolled for a degree beyond the baccalaureate.

1. Students to be INCLUDED in the report:

 a. Include in Part A all students enrolled for a master's degree; for a 6-year degree such as Education Specialist *(Ed.S.)*, Civil Engineer *(C.E.)*, etc.; and for the doctorate *(Ph.D., Ed.D., etc.)*.

 b. Include in Part B students in professional programs which require at least 2 academic years of previous college work for entrance and which require a total of at least 6 academic years of college work for completion. For example, include students enrolled for first-professional degrees in Law *(LL.B.* or *J.D.)*, Medicine *(M.D.)*, Theology *(B.D.)* and so forth. Students enrolled for degrees beyond the first-professional in these fields should be reported in Part A.

 c. Include in Parts A and B students enrolled for an advanced degree on the main campus, on a branch campus, or in an extension center.

2. Students to be EXCLUDED from this report:

 a. Students who, although known to be working on degree requirements, are not formally enrolled this term.

 b. Students enrolled in graduate-level curriculums which lead to increased professional competence, but which do not terminate in an advanced degree. Students in certificate programs for school principals, for example, should be excluded.

 c. "Special" and "unclassified" students taking courses at the levels requested, but not enrolled for degrees.

 d. Post-doctoral students.

 e. Students enrolled at a branch or extension center in a foreign country.

C. TIME PERIOD: Report only those students enrolled as of the fall term of the current academic year *(1969-70)*.

PART A - STUDENTS ENROLLED FOR MASTER'S AND HIGHER DEGREES

D. GROUPING OF SUBJECT-FIELDS: Please examine Part A of this schedule to observe how the various fields of study have been grouped. Each subject group is divided to indicate enrollment by men and women. All of the subject-fields have been classified under the following 26 capitalized headings:

1000 AGRICULTURE
1400 ARCHITECTURE
1700 BIOLOGICAL SCIENCES
2000 BUSINESS AND COMMERCE
1500 CITY PLANNING
2100 COMPUTER SCIENCE AND SYSTEMS ANALYSIS
2300 EDUCATION
2600 ENGINEERING
2900 ENGLISH AND JOURNALISM
3200 FINE AND APPLIED ARTS
3300 FOLKLORE
3500 FOREIGN LANGUAGES AND LITERATURE
3800 FORESTRY
4100 GEOGRAPHY
4400 HEALTH PROFESSIONS
4700 HOME ECONOMICS
5000 LAW
5300 LIBRARY SCIENCE
5600 MATHEMATICAL SCIENCES
6500 PHILOSOPHY
6800 PHYSICAL SCIENCES
7100 PSYCHOLOGY
7300 RECORDS MANAGEMENT
7400 RELIGION
7700 SOCIAL SCIENCES
8300 BROAD GENERAL CURRICULUMS AND MISCELLANEOUS FIELDS

If your institution does not enroll students for advanced degrees in one of the 26 subject areas listed above, you may skip all of the items under that heading. Thus, most registrars will properly skip the entire section headed AGRICULTURE. Similarly, many will properly skip the sections on HEALTH PROFESSIONS and on RELIGION. Many specialized professional schools will skip the section on EDUCATION. Technological schools will generally skip the section on FINE AND APPLIED ARTS. Men's colleges will skip the section on HOME ECONOMICS. Appropriate skipping can speed the completion of your report without injury to quality or accuracy.

E. CLASSIFICATION OF ENROLLMENT BY FIELD OF STUDY: Students should be reported in the fields in which they are specializing, regardless of the department, division, or college in which they are enrolled. For example, students specializing in Agricultural Engineering should be reported in Item 2607 under the broad area of Engineering even though they may be receiving their training in the school of Agriculture.

1. Please classify enrollment into fields of study as specifically as the list on the schedule permits. Example: Enrollment in an Accounting curriculum should be reported as Accounting *(Item 2002)*, NOT in Business and Commerce, General *(Item 2001)*.

2. Enrollment in fields of study which are not listed should be consolidated with the listed fields if such consolidation is descriptive of the specialization. Thus,

Sculpture should be reported in Fine and Applied Arts, other fields *(Item 3213)*;

Astrophysics should be reported in Astronomy *(Item 6804)*;

Geochemistry should be reported in Earth Science, other fields *(Item 6828)*;

Criminology should be reported in Sociology *(Item 7725)*;

Police Administration should be reported in Applied Social Sciences, other fields *(Item 7746)*;

Industrial Design should be reported in Fine and Applied Arts, other fields *(Item 3213)* or in Architecture *(Item 1400)*--depending on the nature of the curriculum; and so on.

3. Fields of Study Offered by Your Institution for the First Time This Term: If enrollments are reported in Fall 1969 for the first time, in a field of study new to your institution, please place an "X" in Column (4). This may save correspondence later regarding the entry.

4. Interarea fields of study: Item 8313 is for reporting fields of specialization which represent two or more broad SUBJECT AREAS. For example, MASS COMMUNICATIONS, encompassing segments of PSYCHOLOGY, EDUCATION, BUSINESS, JOURNALISM, SOCIAL SCIENCES, FINE ARTS, etc., should be reported here. Specify the name of the interarea field of study when reporting in Item 8313.

5. If the field of study does not fit into any of the listed fields, report in Item 8314, Field of Study Not Classifiable in Items 1000 through 8313 Above.

6. If there is no information about the field of study, report the enrollment in Item 3399, Field of Study Not Identified.

7. A cross-reference listing of related fields of study appears at the start of each subject-area on the form. Your attention to these lists will be appreciated.

8. Note that the listing of fields of study within each broad subject area has a similar structure. The first field of study in the list is the general curriculum in the subject area *(with no further specialization)*; the next-to-last field of study is for reporting fields of study within the subject area which are not listed; and the last category is for reporting enrollment where the field of study within the subject area is not known -- where there is no information on the specialization within the subject area.

9. Fields of study are the same as those used in 1968 with the following additions:

Biological Sciences
 Molecular Biology

Engineering
 Biomedical Engineering
 Ceramic Engineering

Religion
 Religious Education, Bible
 Religion, Liberal Arts Curriculum, Nonsectarian

Education
 Education of the Gifted
 Special Learning Disabilities
 Education of the Multiple Handicapped
 Administration of Special Education

Within the area of Education, the single category Education of The Visually Handicapped has replaced two categories *(Education of the Partially Sighted and Education of The Blind)*.

10. Please note that the Social Sciences *(Items 7700-7799)* have been classified into two groups, the BASIC Social Sciences and the APPLIED Social Sciences; the specific fields remain unchanged.

F. CLASSIFICATION OF ENROLLMENT BY LEVEL OF STUDY: Please classify enrollment into the two following categories,

1. Students who have completed less than one full year of required study for an advanced degree. -- Report in Columns 5-8 students who, prior to this term, had completed less than two semesters or three quarters of full-time graduate study or the equivalent in part-time study. Note that these students are identified by the amount of study completed prior to this term, rather than the number of semesters or quarters in which they have been enrolled.

2. Students who have completed one or more years of required study. -- Report in Columns 9-12 students who, prior to this term, had completed two semesters or three quarters or more of full-time study or the equivalent in part-time study for an advanced degree.

3. Note that the 1969 questionnaire does not request separate estimates of students who are expected to complete all doctoral requirements within the year; rather, such students are to be included in Columns 9-12, "Completed one or more year's study".

G. CLASSIFICATION OF ENROLLMENT BY ATTENDANCE STATUS: A full-time student is one whose academic load in terms of course work or other activity *(such as a thesis, research, or teaching)* is at least 75% of that normally required of such student. Time spent by teaching fellows should be included only if such teaching is performed as a requirement for a degree. Employment which is not a part of the prescribed activity for an advanced degree or time spent on work required because of lack of undergraduate background should not be counted as time spent on graduate work. A part-time student is one who is carrying an academic schedule of less than three-fourths the normal load.

H. PLEASE EXPLAIN exceptionally large increases or decreases in specific fields of study, the absence of enrollment in previously reported curriculums, etc.

PART B - STUDENTS ENROLLED FOR PROFESSIONAL DEGREES IN SELECTED FIELDS

I. CLASSIFICATION OF ENROLLMENT BY LEVEL OF STUDY:

1. Report in Columns 5-8 those students who have completed the previous college work *(preprofessional training)* required for admission to the professional school but who, prior to this term, had completed less than two semesters or three quarters of full-time study or the equivalent in part-time study in the professional school. Note that these students are identified by the amount of study completed prior to this term, rather than the number of semesters or quarters in which they have been enrolled.

2. Report students who have completed one or more years of required study in Columns 9-12 of Part B. Report in these columns students who, prior to this term, had completed two semesters or three quarters or more of full-time study or the equivalent in part-time study for the professional degree.

J. CLASSIFICATION OF ENROLLMENT BY ATTENDANCE STATUS: See paragraph G above.

PLEASE READ INSTRUCTIONS BEFORE COMPLETING THIS FORM.

BUDGET BUREAU NO. 51-R0568
APPROVAL EXPIRES: 6/30/71

1. INSTITUTION CODE NUMBER

2. REPORTING DATE
Before November 30, 1969

If your institution does not grant advanced degrees *(master's, doctor's, or first-professional degrees)*, please "X" here ☐ enter the name and address of your institution in Item 3, below, and return this form. NOTE that Part B applies if you grant first-professional degrees.

3. NAME AND MAILING ADDRESS OF INSTITUTION *(Include City, State and ZIP Code)*

4. NAME AND TITLE OF RESPONDENT

5. TELEPHONE NUMBER OF RESPONDENT *(Area Code, local number and extension)*

6. NAMES OF BRANCH CAMPUSES INCLUDED

7. NAMES OF BRANCH CAMPUSES EXCLUDED
